At what point did entrusting Israel's fate to a fifteen-year-old shepherd sound like a good idea?

Niklas, the eighth son of Jesse, hates sheep, making his life as a shepherd the definition of miserable. So when Alvaro, his country's last and final seer, anoints Niklas to be Israel's protector against the barbarian Philistines, he's thrilled. Yet his dreams morph into nightmares after hearing his first assignment. "Root out the traitor hiding in our nation," Alvaro warns Niklas, "or watch your family and hometown burn." How can he hope to survive the already impossible task when lions, the Mad King, and a literal giant stand in his way?

In the vein of JK Rowling and CS Lewis, *Tyrants and Traitors* is a fantastical retelling of the original giant slayer, geared toward young adults. Releasing October 10th, 2016, you'll be able to get a physical or electronic copy at Amazon, Barnes and Noble, or your local Madison bookshops.

About the Author

A Madisonian, author Joshua McHenry Miller has been writing for over a decade. He's currently starting a church and working as a community developer on the south side of the city. Also of note, he's donating half of his profits back into the community, supporting such efforts as: Aldo Leopold Community School, and Selfless Ambition.
