

Short Bio

Joshua McHenry Miller, a native Michigander, grew up living in two worlds: the cozy suburbs of Detroit and the urban jungle of Pontiac. A lover of story in all forms, he's spent over a decade honing his writing, and his debut YA novel, *Tyrants and Traitors*, released October 10th, 2016. When Josh isn't writing, he works as a community developer in south-central Madison, WI.

Long Bio

Most people use vacation days to take actual vacations. Author Joshua McHenry Miller saves them for when JK Rowling releases a new Harry Potter book.

A nerd long before the world realized it was awesome to be geeky, he's loved superheros, dragon slayers, and jedi knights as long as he can remember. Eventually, he wanted to do more than simply consume adventure stories; he wanted to create them.

For the last ten years he's studied story craft, and the fruit of his work has culminated in YA novel *Tyrants and Traitors*. It's a fantastical retelling of history's King David. If you imagine a snarky love child between *The Chronicles of Narnia* and the *Percy Jackson* series, you're on the right track.

When he's not writing till his fingers turn white (he has poor blood circulation), he works as a community developer in south-central Madison, WI. He's also a huge Marvel fanboy, enjoys gaming (both the tabletop and video game variety), and would spend every day in open water if it were possible.

Backcover Bio

A lover of superheroes, jedi knights, and dragon slayers, author Joshua McHenry Miller spent a decade honing his storytelling chops. When he isn't writing, he works as a community developer in Madison, WI.
